

CRIS JOHNSON'S

AMAZING SCHOOL ASSEMBLY PROGRAMS

Here's What Past Clients Have To Say:

"It was PHENOMENAL!"

Principal Scott Moorer
Chestnut Intermediate School
North Olmstead, OH

"Cris, Thank you very much for the fabulous presentation today. Both the students and staff thoroughly enjoyed it. It was a pleasure working with you. I hope to work with you again in the future."

Principal Scott Moorer
Chestnut Intermediate School
North Olmstead, OH

"Thank you so much for a WONDERFUL assembly! The kids (and teachers) can't stop talking about it!"

Mary Nenninger
John XXIII Elementary
Middletown, OH

- **This Science Assembly Will Engage our Students In Four Different Ways!**

This Science Assembly Will Engage Your Students In Four Different Ways!

- **There will be exercises & experiments that EVERY student watching can actually do...live, during the show!**

These experiments are simple, yet amazing, and the only "prop" needed is one piece of paper!

- **This assembly features amazing, interactive, and fun experiments that can be done live by a few volunteers in every classroom watching!**

If your teachers choose to use these experiments live during the show, I'll walk everyone through the experiments as the assembly unfolds! In addition, I'll provide your school with a list of materials to make doing the experiments live during the assembly SUPER easy!

- **Cool optical illusions that will make your students say, "Huh???"**

These illusions are quick little bite-size pieces of science that serve as a springboard to discussions and lessons on perception.

- **Incredibly fun OUTDOOR sensational experiments!**

Most of these experiments are too messy and involved for a live in-person assembly so I went to the trouble of having these segments pre-produced ahead of time and will run during specific times during the virtual assembly. The experiments I selected for the pre-recorded, outdoors portions of the show are messy yet fun, educational yet safe, so students can easily replicate these experiments at home with adult supervision...extending the value of this program far beyond just the in-school running time!
